Participants represent administration officials, regional and local leaders. The goal of each team is to provide their settlements, regions, and the countries with necessary resources, infrastructure, and services. The game is played in a series of rounds representing consecutive years. A balance between short- and longterm goals is required, as well as a balance between the goals of local regions and the interests of the entire country. Players are faced with the challenges of negotiations, conflict resolution, strategy implementation, group leadership, and the allocation of resources.

BUCERIUS SUMMER SCHOOL

Threats of a Bipolar World 16-26 August 2024

Program

ON **GLOBAL GOVERNANCE**

Moderators: Georg Mascolo, Journalist, Berlin Eberhard Sandschneider, Partner, Berlin Global Advisors, Berlin

Director: Sascha Suhrke, ZEIT STIFTUNG BUCERIUS, Hamburg

An initiative of the ZEIT STIFTUNG BUCERIUS, Hamburg, in cooperation with the Karl Schlecht Stiftung, Aichtal

rom 16 to 26 August 2024, the ZEIT STIFTUNG ■ BUCERIUS, in cooperation with the Karl Schlecht Foundation, holds its twenty-third annual Bucerius Summer School on Global Governance. The original idea to create such an institution harked back to Henry Kissinger's famous International Summer Seminar at Harvard University. In the 1960s, Kissinger brought together emerging leaders from all over the world for a summer course of debates and lectures. Many of the seminar's alumni went on to become ministers, renowned academics, prominent journalists - leaders in their respective fields.

Out of this year's Bucerius Summer School candidates - nominated by government heads, ministers, company CEO's, university presidents, media leaders and directors of international organizations – we have invited 57 promising business representatives, politicians and academics from different countries all over the world - women and men between 28 and 36 years of age who have already acquired considerable professional experience.

The overall aim of the Bucerius Summer School is to foster leadership qualities in young professionals by involving them in an international dialogue on current political, economic, social and juridical questions. Participants are inspired by - and learn from distinguished speakers, well-known public figures in politics, business, academia and the NGO sphere.

Georg Mascolo, Journalist, and Eberhard Sandschneider, Partner, Berlin Global Advisors, chair the sessions of the Bucerius Summer School. The lectures and workshops will be held at the Hotel Le Méridien on the banks of the Alster, at the Kampnagel Theater in Hamburg, in different locations in Berlin, and in Lübeck at the European Hansemuseum. Georg Mascolo, Eberhard Sandschneider, and Director Sascha Suhrke with his team are responsible for the program.

The Bucerius Summer School has always been more than just a high-profile conference. It is about building networks and enhancing cross-cultural cooperation of representatives from all walks of public life. To follow up on the annual meetings, we run an active alumni network. With the support of the alumni, the ZEIT STIFTUNG BUCERIUS organizes regional follow-up seminars.

Since 1971, the ZEIT STIFTUNG BUCERIUS, one of Germany's largest private foundations, has been involved in the funding of projects in various fields of research, art and culture, as well as education and training. It was established by Gerd Bucerius, the founder and publisher of Germany's leading quality weekly, DIE ZEIT. Apart from the Bucerius Law School, the Bucerius Kunst Forum in Hamburg and other projects, the foundation runs a variety of international programs, of which the Bucerius Summer School is the most ambitious.

The Karl Schlecht Foundation is a non-profit foundation with a focus on "Good Leadership". Its guiding principle is the improvement of leadership in business and society through humanistic values. Against this background, it supports projects for the personal development of young people and prospective managers in the areas of ethics, leadership, entrepreneurship, culture and technology. The Karl Schlecht Foundation, based in Aichtal with offices in Berlin and Munich, was founded in 1998 by engineer Karl Schlecht. The donor is the founder of the concrete pump manufacturer Putzmeister.

The days the participants spend with us will mark the prologue of their long journey towards leadership. The friendships incubated here may well translate into strong partnerships that will serve humanity in the future. We hope that the Bucerius Summer School on Global Governance will give them an opportunity to reflect on the disruptions that are agitating the global community, help build leadership attributes to respond to these, and create empathy for multiple perspectives that abound today.

The ZEIT STIFTUNG BUCERIUS and the Karl Schlecht Foundation welcome all speakers and participants. We wish them fruitful discussions, new insights and valuable networking.
